

# Long Distance Trails Crew

We Rock Your Trail

Ribbon Cutting – Appalachian Trail Relocation on West Mountain in Harriman State Park

The New York-New Jersey Trail Conference's Long Distance Trails Crew (LDTCC) is an all-volunteer group of men and women dedicated to the construction and rehabilitation of the Appalachian Trail, Long Path, and Highlands Trail in New York State west of the Hudson River. The LDTCC repairs and relocates damaged trails and has a great time working as a team. Our experienced crew leaders are eager to teach people of all abilities the skills needed to build trails.

**No experience necessary**

New York - New Jersey Trail Conference  
Connecting People with Nature since 1920

We provide on-site training. Volunteers learn the basics of trail planning and construction, work site safety, material selection, movement and placement of rock, use of crushed stone and mineral soil, principals of drainage, and more.

We'd be happy to show you our work. You'll find us building trails most weekends from March through November.
